Dear Philip,

Now that the dust has settled on the American Airlines Center I wanted to thank you and your company for the quality work they performed. I realize that HKS asked you to jump in a little late in the game, but the results were still the same. The craftsmanship on the Stars locker room door was outstanding as well as the enormous tile logo for the Mavericks locker room. I especially like the lack of maintenance associated with the tile logo.

The showstopper was your glass and stainless steel Maverick's logo in the entryway of their offices. Mark Cuban loves it and you know the media loves it as well. All you have to do is watch any sports show about the Mavericks and there is your logo in the background.

Again, thank you for your assistance with the center. I am so glad that we were able to find someone local to assist us with these last minute projects.

Kindest Regards,

A handwritten signature in blue ink that reads 'Brad Mayne'.
